

Japan Technical Jamboree

Event coordinators
Satoru Ueda
Hisao Munakata

Come and Join us!

- Every final Friday of odd month
- Next time
 - August 25th Friday
 - In Tokyo
 - Free of charge
 - See CELF home page

Why to begin?

- Very shy Japanese engineers
 - No Q and A in “technical conferences” in Japan
 - It is not “Technical Conference” but “Jamboree”!
 - Speak out! And have a fun of technical discussions!
 - “Speak English? No way!!”
 - All right, you may speak Japanese
 - Later the wiki page will be translated by some volunteers
 - “International business trip? I won’t be approved”
 - Don’t worry. It is held in Japan (mostly in Tokyo)
- Only for CELF members?
 - No, it isn’t. **Come and join us!**

Discussion Items

- Various discussion items
 - Direct FB improvement for digital TV set
 - Kernel scheduler behavior
 - CPU resource management tool
 - Fast boot up method
 - Case studies of actual products design
 - And more...

Japan Jamboree

- Questions and answers
 - Always 30 minutes and more
- Sophisticated developers
 - About 100 developers to join
 - Mostly cutting edge embedded system developers
 - Actual developers relating to the products design who know the requirement and background very well

Milestone to OLS

- Bi-monthly event
 - Very ideal to make development progress report
- Road to Embedded Linux Conference
 - Every April, Hosted by CE Linux Forum
- Road to Ottawa
 - From Japan embedded world
